

Dental Surgeon

Bansri Patel

BDS (London) MJDF (RCS Eng)

Bansri is an Associate Dentist at Ware Dental Care and has been for the past 5 years. Graduating from Bart's and The London in 2008 she comes with experience in hospital and general dentistry. She undertook her vocational training in a high need dental practice in Ilford, Essex. She loves the variety of work in general practice and does her utmost to ensure that visits are as relaxed and comfortable as possible.

In 2009, she obtained her membership of the Faculty of Dental Surgeons from the Royal College of Surgeons whilst working in hospital as a Oral and Maxillo facial senior house officer. Bansri is also an accredited dentist for the clear brace system, Invisalign. These virtually invisible braces provide a fantastic new alternative to conventional metal braces for straightening teeth.

Her enthusiasm for postgraduate education led Bansri to undertake the world renowned Certificate course in Advanced Cosmetic Dentistry, run by Dr Chris Orr in London. Cosmetic dentistry in particular Invisalign teeth straightening, Botox and dermal fillers are Bansri's particular interests and she is always striving through courses and self development to be able to offer her patients the very best in these fields.
