

Practice Manager

Becky Lyall

ILM Level 5 Business and Management Diploma

Becky has gained a Business and Management Level 5 diploma with the Institute of Leadership and Management. Becky is also currently studying towards a CIM Foundation Certificate Level 3 in Marketing. She has worked in administration and management within dental practices for 8 years and has now joined us at Ware Dental Care.

Becky's aim is to ensure we deliver first class customer service and care to our patients. Becky hopes that we can keep developing the practice to adhere to 'green' issues with the software and equipment in place. Becky also believes we can expand our services to benefit all of our patients at Ware Dental Care.

Outside of dentistry, Becky enjoys spending time with her family and friends and studying.
